Objective:

Looking for a software developer so I can use my love of coding, problem-solving abilities, and willingness to learn from senior developers and engineers with expertise.

Highlights of Qualifications

- Demonstrated ability to work effectively both independently and in collaborative team environments.
- Strong attention to detail, and excellent oral and written communication skills.
- Adaptable and driven learner, with a proactive approach to mastering new tools and technologies.
- Thrives in fast-paced environments, with a proven track record of delivering high-quality results under pressure.

Technical Skills

React.js

Node.js

JavaScript

Angular.js

TypeScript

MySQL

Python

Education/Certifications:

- George Brown College, Toronto, ON

Computer Programming and Analysis

Sep2022 - April 2025

Completed various projects like demonstrating proficiency in smart contract development and decentralized application (DApp) deployment.

- IRS Institution

Languages: C++, Java Certificate

Dec 2021- Apr 2022

Professional Experience:

- George Brown College, Toronto, ON

Application Development

Jan 2024 - Present

- Collaborated with a team of developers to design and implement a travel management application using C#.
- Developed backend functionality using ASP.NET Core, including user authentication and data storage.
- Utilized Entity Framework Core to interact with a relational database, ensuring efficient data retrieval and management.
- Implemented RESTful API endpoints to enable communication between the frontend and backend components.
- Designed and developed responsive user interfaces using HTML, CSS, and JavaScript, enhancing the application's usability.
- Conducted thorough testing and debugging to identify and resolve software defects, ensuring a smooth user experience.
- Contributed to project documentation, including requirements analysis, system design, and user manuals.

- Wendys

Shift Supervisor

- Received Employee of the Month.
- Led a team of employees of Wendys during shifts, ensuring adherence to company standards and achieving operational excellence.
- Facilitated clear communication between team members and management, resulting in improved efficiency and customer satisfaction scores.
- successfully resolved customer complaints and operational issues in a timely manner, leading to a [specific improvement, e.g., a reduction in customer wait times.
- Trained new employees on Wendy's policies, procedures, and best practices, contributing to a cohesive and well-trained team.
- Thrived in a fast-paced environment by effectively managing competing priorities and ensuring smooth operations during peak hours and special events.

Volunteer Experience:

Tech Club, IRS Institution

Member

Sept 2021

- Organized coding workshops and hackathons to foster a collaborative learning environment for students.
- Mentored junior members, guiding coding techniques and software development best practices.
- Contributed to the development of club projects, gaining practical experience in team-based software development.

Interests/Hobbies:

Reading technology blogs and articles to stay updated on industry trends.

Playing volleyball and participating in local community leagues.

Volunteered at local coding events and hackathons to support STEM education initiatives.
